STATEMENT UNDER 37 C.F.R. § 1.821-1.825

In reply to the Notification to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures mailed on June 7, 2001 and as required by 37 C.F.R. § 1.825(a), enclosed is an amended Sequence Listing consisting of 25 sheets to be inserted at the end of the application, replacing the current Sequence Listing.

In the accompanying Reply to Notification to Comply with Sequence Requirements, Applicants amend the application to comply with the requirements set forth in 37 C.F.R. § 1.821-1.825. As required by 37 C.F.R. § 1.821(d), sequence identifiers are now used throughout the application description and claims to refer to their respective sequences.

The enclosed Sequence Listing includes all nucleotide and amino acid sequences described in the application, as required by 37 C.F.R. § 1.821(c). Each sequence in the application appears separately in the Sequence Listing and each sequence in the Sequence Listing is assigned a separate sequence identifier. I hereby submit that the substitute sheets contain no new matter.

As required by 37 C.F.R. § 1.825(b), enclosed is a diskette containing a copy of the sequence listing in computer readable form including all previously submitted data with the amendments incorporated therein. The contents of the computer readable form are the same as the contents of the paper sheets.

If there are any charges or any credits, please apply them to Deposit Account No. 03-2095.

Respectfully submitted,

Date: 3 August 2001
